By Kate Bowler

In 2006, Kate Bowler was a 35-year-old divinity professor with a promising career and a loving family. But then life happened: she was diagnosed with Stage IV colon cancer.

And Then Life Happens is Bowler's memoir of her journey through cancer treatment, her struggles with faith and doubt, and her ultimate discovery of hope and resilience. The book is a raw and honest account of one woman's experience with cancer, but it is also a universal story about the human capacity for love, hope, and healing.

Bowler writes with candor and humor about the challenges of cancer treatment, the emotional rollercoaster of hope and despair, and the difficult questions about faith and God that cancer raises.

But And Then Life Happens is more than just a cancer memoir. It is a story about the power of love and community, the importance of hope, and the resilience of the human spirit.

Bowler's story is a reminder that even in the darkest of times, there is always hope. And that even when life throws us a curveball, we can find the strength to keep going.
