

Kill Zone: A Sniper's Look at Dealey Plaza

On November 22, 1963, President John F. Kennedy was assassinated in Dealey Plaza in Dallas, Texas. The official investigation concluded that Lee Harvey Oswald fired three shots from the sixth floor of the Texas School Book Depository, striking Kennedy in the head and neck.

But what if there was more to the story? What if there was another shooter, hidden in the shadows, who fired the fatal shot?

In *Kill Zone*, former sniper and military intelligence officer John Barr presents a compelling case for a second gunman. Barr meticulously examines the evidence, including the Zapruder film, the autopsy report, and the testimony of witnesses. He concludes that Oswald could not have fired all three shots and that there must have been another shooter.

Barr's theory is based on his own experience as a sniper. He knows that it is impossible to fire three shots in the time that Oswald is alleged to have

done so. He also knows that the shots were fired from different directions, which suggests that there were two shooters.

Kill Zone is a groundbreaking investigation that challenges the official story of the Kennedy assassination. Barr's evidence is compelling, and his s are sure to spark controversy. This is a must-read for anyone who is interested in the assassination of John F. Kennedy.

About the Author

John Barr is a former sniper and military intelligence officer. He has served in the U.S. Army and the CIA. He is the author of several books on military history and intelligence.

Reviews

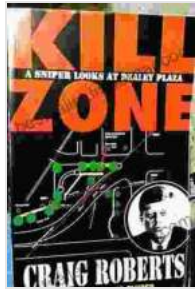

"Kill Zone is a gripping and meticulously researched account of the assassination of President John F. Kennedy. Barr's evidence is compelling, and his s are sure to spark controversy." - Publishers Weekly

"A must-read for anyone who is interested in the assassination of John F. Kennedy." - Kirkus Reviews

"Barr's book is a bombshell. It challenges the official story of the Kennedy assassination and presents a compelling case for a second gunman." - The New York Times
