

No More Police: The Case for Abolition

By Mariame Kaba

In this groundbreaking book, activist and scholar Mariame Kaba argues that the police are not a solution to the problems of crime and violence, but rather a major part of the problem.

Kaba offers a radical new vision for public safety, one that is based on community care and transformative justice. She shows how the police have historically been used to suppress and control marginalized communities, and how they continue to do so today. Kaba argues that the only way to create a truly just and safe society is to abolish the police and invest in the things that really make us safe, like housing, education, and healthcare.
